

2. PREPARE OURSELVES FOR COLLABORATION
COLLABORATION QUOTIENT (CQ).

"No one cares how much you know, until they know how much you care."

THEODORE ROOSEVELT

The **Collaboration Quotient (CQ)** tool helps to explore the aptitudes that are needed for successful open innovation. By comparing the Collaboration IQ of an organisation and its people we can examine any differences and start to think about culture change or training programmes needed.
